ACKNOWLEDGEMENTS

I express my humble greetings to his holiness **Jagadguru Sri Shivarathri Deshikendra Mahaswamijigalavaru** who has showered their blessings on us for framing our career successfully.

I express my sincere thanks to our beloved principal, **Dr. Bhimasen Soragaon** for having supported us in our academic endeavors.

I am also grateful to **Dr. Rohitaksha K**, Associate professor, Head of the Department, Master of Computer Applications, for his unending support, guidance and encouragement in all our ventures.

I am thankful for the resourceful guidance, timely assistance and graceful gesture of my guide **Mrs. Komala H S**, Assistant Professor, Department of Master of Computer Applications, who helped me in every aspect of my Internship work.

Last, but not least, I am pleased to express our heart full thanks to all the teaching and non-teaching staff of the Department of Master of Computer Applications and my friends who have rendered their help, motivation, and support.

ABSTRACT

The "**Music Player**" is a web-based application that allows users to play music, manage playlists, and interact with various features related to song management. It includes functionalities like user registration, admin login, adding and deleting songs, and listening to songs online. The system leverages basic web technologies like HTML, CSS, JavaScript, and local storage for storing user information and music data. The application provides a seamless, user-friendly interface and is designed to be a reliable platform for managing and enjoying music.
